- Compact geometry.
- Oversize 25.4mm seat post.
- Racing handlebars.
- Haro Holeshot tires.
- Disc brakes.
- Chromoly crankset.
- Available in black with or without graphics.
When Bob Haro built the first freestyle bike ever, back in 1980, we knew we were onto something big... A bike designed to rage on any and all terrain, vert or flat. A bike that was so versatile it would go on to launch a whole new sport... Freestyle BMX. Since then, Haro Freestylers have been the overwhelming choice of hard core riders worldwide. In fact, they've been ridden by just about every top rider in the sport. So you can bet every possible title, championship, world record, you name it. The Haro name continues the tradition. The Master. The Spot. The Shredder. The Edge. Four Freestylers designed to go wherever your riding may lead you... from street to ramp and everything in between. Haro Freestylers... The First Name in Freestyle and the last word when it comes to high performance freestyling.

**MASTER**
- The bike that launched the sport of freestyling.
- Classic twin top tube 100% 4130 chromoly frameset.
