HARO BIKES  
1978-2008

# 1978-2008

## KNOW YOUR HISTORY

"The paper used to print this catalog is not only recycled, but also Forest Stewardship Council (FSC) certified. What does this mean? It means that Haro BMX takes pride in the fact that FSC sets high standards that ensure forestry is practiced in an environmentally responsible, socially beneficial, and economically viable way.

Haro BMX is doing our part to reduce the impact our footprint makes on this great Earth....but the question is...are you? Be conscious. Go to [FSC.US.ORG](http://FSC.US.ORG) to learn more."

**Originality**

**Three decades**

**Milestone in BMX**

**Stability**

**Vision of Bob**

**Know your History**

**An uprising**

**Here for good**

30 years we've been at this game. 30 years! Back in the beginning we were fueled by the New Wave and Punk band uprising. Loud colors, making statements and hard/brash styles were all the rage. Those uprisings consolidated their way to the 90's forcing on a new way of riding, thinking and expressing ourselves. We, too, transformed ourselves to this new generation and mindset. Retaining energy of the aggressive BMX way, we kept it current and paid attention to the culture and lifestyle that surrounds us. Haro BMX is the original BMX brand. We've been rogue, brash, neon, loud, conservative, punk and grunge, but the main thing is we've never gone away.

That stability is not so much a milestone as it is a statement. Plenty have come, but not all remain. Who can claim the history of inventing the sport...or better yet, the first real Freestyle bike? That would be the man himself, Bob Haro.

Bob had a vision and a passion back in the 80's that still runs through our blood today. From the designs that we create to the bikes that our teams ride, the vibe that was created all that time ago continues today through every Haro experience. Albeit, the generators of that style and vibe now come through the forms of Ryan Nyquist, Colin Mackay, Dennis Enarson, Ben Wallace and of course our two street cats, Hucke and Ish.

The bikes have become lighter, the gearing smaller, the seats lower, and the tires bigger. We've helped institute these changes within the sport all the while keeping the flow and steady feeling of the ride the same. The team mentioned above is our main testing ground, and that alone is confidence enough to make you want to succeed on any Haro whip.

You may not win the actual Dew Tour championship like Nyquist did last year, but I guarantee you will experience that same feeling when you land your first trick...which by the way is the same feeling that Bob Haro experienced over 30 years ago when he created one of the first BMX tricks...the Rock Walk.

So when break dancing or Footloose becomes all the rage again, we'll be here.

Get to it. Haro Bikes...30 years of BMX. Know your History.

ORIGINAL

FREESTYLER

It took 2 years of hype, and 30yrs of pure radness to pull this model out of the vault. This design and vibe was what started it all. An ex-BMX race bike shaped and formulated to start a new revolution. A platform light-enough to race at the local track, yet versatile enough to be used for tricks at home.

This wasn't just another model or project for us. Trying to recreate the very product that started the Freestyle revolution wasn't something we could rush. We sampled, tinkered, noodled and argued over what was the best approach to launch this bike. How do we design it? Current geometry or original geometry? Tuffs or 36h Araya's? It was a tough choice.

Ladies and Gentlemen, I introduce to you our tribute to the Original Freestyler. We really hope you enjoy it as much as we do.

- Original Freestyler frame design w/updated Geometry
- 100% Full Crmo Original Freestyler influenced fork
- Skyway Tuff Wheels
- Haro MS4 Tires
- 44/16 Gearing w/ACS Mainline Freewheel

# FORUM PRO LITE

Color:

Acid Bath

- Convert Frame with 21" TT.
- Pivotal SL Seat/Stump Seat Post Combo.
- Alienation Rims w/CenterRidge technology. Chrome Rear.
- Odyssey Aitken Tires.
- Chromoly Forks and 8" Bars.
- 25/9 Gearing w/alloy sealed bearing hubs/Hollow axle and 9t driver

Weight is the name of the game...well, that and value. We give you both with the Forum Lite series. A streamlined whip is what it's all about. If you want pegs, rotors, bells and whistles, keep turning the pages and fix yourself on the F or X series. The Forum Lite bikes are focused on weight, value, style and vibe.

Shoot, even the all new Intro Lite S (S stands for simple) is oozing with style and personality but at a super affordable price. The Pro Lite and Counterpart Lite are status quo with the Convert frame so all of you brakeless monkey's out there have a choice. The Intro is insane with a 25/9 and geometry that Colin Mackay and Mike Ish designed.

Check em' out and don't weight...get it..weight?

# FORUM COUNTERPART LITE

Colors:

Neon Red

Gloss PeaSoup

Battle Blue

- Convert Frame with 21" TT.
- 25/9 Gearing w/alloy sealed bearing hubs/Hollow axle and 9t driver.

## X-SERIES

Once a line of bikes for the rider just discovering the cool side of BMX has now crossed into the area where pro bike's reside. Sure, the newbie's to the lifestyle of BMX can still get hooked up with the new X16 or X18 and grow their talents to an X2 or X3, but what happens when they need something higher end? The new X4 and X5's simply amazing and nothing short of Pro Level. But we would expect that with our Pro Team at the fore-front of the design team.

## X5

- New X-Series Full Crmo Frame with 20.8" TT. w/ internal headset
- 25/9 Gearing w/alloy sealed bearing hubs/Hollow axle and 9t driver.
- Ritchey Logic Zero Comp Internal Headset.
- Odyssey Dirt Path Tires.
- Alienation Rims w/CenterRidge technology.
- Chromoly Forks and 8" Bars.

## Colors:

Matte Black

- 25/13 MicroDrive Gearing.
- 140mm Chromoly Cranks.
- Haro MS4 Tires engineered for 16" wheels.

Colors:

Bright Red

Double Platinum

## F-SERIES

Aimed at the riders that want more bells and whistles for their bucks, the F-Series is an important part of our line up. Not only do you get new colors and updated graphics with the F-Series, you get tremendous value as well. With the F16 and F18 models, riders can start at a younger age with a four peg, front brake bike. Lighter frames, four pegs, front brakes, super strong wheels with 14mm axles and a rotor...there's not much more that a Street and Park rider could want in a BMX bike. For you less-stable riders out there, we kept the ever-so-popular 24" version so you can learn quicker, or get back to where you were 15 years ago. Enjoy.

- Mag wheels w/bearings.
- Long saddle for multiple sitting positions.
- Adjustable saddle height for ages 2yrs-5yrs.

Colors:

Gloss White/Blue

Gloss White/Pink

## RACE SERIES

We've won every title known to the sport of BMX. ABA #1 Pro, Amateur, Girl Amateur, Pro Cruiser, NBL #1 Pro, Amateurs, cruisers...World titles, ABA Amateur and Pro back to back titles and of course, Team titles. You get the point? We've been there and done that. What does this mean to you? Probably nothing. But what it means to us is that all these titles, the riders who won them, and our current crop of riders have all helped to develop one of the best riding, handling and looking BMX bikes in the business.

Everything from the frame to the tires and the grips to the pedals have been tested to ensure that the look, feel and strength of the bike is nothing short of 100%.

KHALEN  
YOUNG

FEAR

sharo

Push it.

A vibrant, abstract collage featuring a central image of a person in a white jumpsuit and a blue mohawk riding a bicycle. The collage includes various elements: a top-left corner with yellow and blue polka dots, a top-right corner with a 'FEAR' poster, a bottom-left corner with a woman in a white shirt and tie, and a bottom-right corner with a yellow police officer's helmet. Text elements include 'KHALEN YOUNG' in a white box, 'Push it.' in a yellow box, and 'sharo' on the bicycle frame.
