 **HARO**®

MTB 2014

---

A close-up photograph of a black mountain bike tire with a knobby tread pattern, resting on a piece of charred, reddish-brown wood. The wood is split and shows a rough, textured surface. The background is dark and out of focus.

***HARO MTB 2014***

# WHERE THERE'S SMOKE...

**THERE'S A FLIGHTLINE BURNING DOWN A FIRE ROAD.**

What originally began as a small, rider-owned business more than 35 years ago quickly evolved into a market leading company that would change the face of the BMX world forever. Based on the same design principles that made us famous, Haro introduced its first mountain bike in 1986, the Haro Explorer. Since then, and for more than 25 years, the team at Haro has strived to make the coolest Mountain Bikes with innovative design features and one important common element that can be found in each and every Haro built.....Fun. Want some?

# IT'S WHAT'S INSIDE THAT COUNTS

## M2X Megamax

Blends high modulus super stiff and light T-700 unidirectional carbon fiber with innovative design features including oversized tapered head tubes, massive downtubes and BB92 bottom brackets delivering a high level of torsional stiffness to optimize power transfer.

Found on all FLC29 models.

## 6000 SERIES ALUMINUM

### FL3G

Haro's 3rd generation lightweight 6000 series aluminum frame platform. Custom specification and formed aluminum tubing designed to reduce weight, enhance ride compliance, and increase overall performance.

Available on FL20, FL24, FL One, FL One ST, FL 29 One

### FL3Gi

The FL3Gi includes all the custom features found on the FL3G with the addition of a semi-integrated headtube resulting in an extremely durable and lightweight frame.

Available on all Two, Sport and Trail models.

### FL3Gi Taper & FL3Gi w/ X6

Lightweight tubing along with smooth welding and oversized 1 1/8"-1 1/2" tapered headtube with integrated headset for increased front end rigidity and high-performance. Add in ultra-light X6 tubing on Expert models for the absolute finest aluminum frameset Haro makes to provide a lightweight responsive top-performer.

FL3Gi Taper available on FL 27.5 Comp, FL 29 Comp

FL3Gi Taper w/X6 available on FL 27.5 Expert, FL 29 Expert

### Six Shooter Dropouts

Strong and durable CNC machined interchangeable dropouts designed to give the option of running a single speed or multi-gear rear derailleur and wheel.

Available on the Steel Reserve 1.3

## FLC ELITE

**SIZES:** 15.5", 17.5", 19"

**FRAME:** Haro Flightline Carbon 29 Series w/ taper headtube, BB92

**FORK:** Rock Shox SID SL 29 Taper 100mm travel w/ PushLoc

**CRANKSET:** SRAM XX1 34t w/ ceramic bearing Press Fit BB92

**SHIFTERS:** SRAM XX1 Trigger 11spd

**DERAILLEURS:** SRAM XX1

**BRAKES:** SRAM XX

**CASSETTE:** SRAM XG 10-42T

**HANDLEBAR:** Ritchey WCS Flat bar

**SADDLE:** Prologo Zero 2

**SEATPOST:** Ritchey WCS 31.6mm

**WHEELSET:** SRAM Roam 50 wheelset

**TIRES:** Ritchey Shield 29 x 2.1"

**COLORS:** SG Green / SG UD carbon

## FLC

# (UN) PAVING THE WAY

## THE NEW FLIGHTLINES ARE BLAZING TRAILS IN CARBON.

Imagine a mountain bike with the quick, agile feel of a legendary Haro BMX bike and the solid, stable handling of a 29er. Sound good? Now mold it with lightweight, next-generation carbon fiber and you get the ultimate trail machine - the Haro FLC 29. Hundreds of hours of research and development went into Haro's very first carbon fiber mountain bike - the FLC 29 - to give it superior handling and stability characteristics unlike any other carbon fiber hardtail 29er.

**Take our flagship, the FLC Elite. The highest-end mountain bike in Haro history** features SRAM XX1, an innovative 11-speed system that completely eliminates the front derailleur and shifter while still offering a gear range to handle all riding conditions. Add in the legendary Rock Shox SID SL with a 15mm thru axle and the result is a featherweight race rig engineered to crush the dreams of your competitors.

Like every Haro bike, the FLC 29 is built by riders for riders and possesses an unmatched blend of performance, durability and value. Thanks to MegaMax Carbon technology, the FLC 29 features unidirectional carbon fiber layup and custom tube shapes to maximize efficiency and strength for ride qualities so smooth and predictable that the FLC 29 practically disappears beneath you.

The FLC 29 with MegaMax Carbon technology optimally balances the inherent tensile strength and modulus of carbon fiber with innovative designs including an oversized, tapered head tube and BB92 bottom bracket. The result is a machine that rockets you forward with every pedal stroke, razor-sharp cornering to make the tightest turns a breeze and vertical compliance that smoothes out even the rockiest trails.

While many competitors produce carbon frames that may only endure one season, the Haro FLC 29 is built to last. As a testament to its quality construction, Haro features an industry-leading limited lifetime warranty for all FLC frames. And as a bonus, the starting price for a complete, well-equipped FLC 29 is less than just the frame alone of many competitive carbon fiber 29ers. The Haro FLC 29 is a high-performance, value-packed, no-compromises trail machine with legendary ride qualities that only a Haro can deliver. So get your legs around one today and experience it for yourself!

**FLCs ALSO AVAILABLE IN GLOSS UD CARBON FRAMESET ONLY\***

**FLC PRO**

# ALL PRO NO CON

Even if you aren't a pro, the innovative design and exceptional handling qualities of the FLC Pro will make you feel like one every time you clip into your pedals. Featuring the legendary Shimano XT shifting and braking systems along with high-end components from Ritchey, Prologo and a 15mm thru axle Rock Shox Reba RL fork with Poploc, the FLC Pro knows how to win.

## **FLC PRO**

**TIRES:** Kenda Small Block Eight 29 x 2.10"  
**COLORS:** SG Red / UD carbon

For those who want a serious race bike foundation you can upgrade over time, the FLC Comp is as rock solid as they come. Featuring the same high-end MegaMax T700 Carbon, tapered head tube and BB92 bottom bracket as the flagship FLC Elite, the FLC Comp features a value packed build kit focused on putting the hurt on your competition.

AHEAD OF THE CURVE

The FLC Expert's razor sharp handling and top flight components puts you ahead of the curve. Featuring Shimano shifting and braking systems including an XT rear derailleur, a 100mm Rock Shox fork with Poploc and quality components from FSA, Ritchey and Prologo, the FLC Expert just may be the greatest carbon fiber 29er value ever created.

## FL29 EXPERT

**COLORS:** Matte Black

## FL29

# TURN MOUNT AINS

## INTO MOLEHILLS. THESE 29ERS HAVE SOMETHING TO SAY.

With a focus on light weight, razor-sharp geometry and eye catching looks, the Flightline series of aluminum mountain bikes introduce an all-new model for 2014, the 27.Five. Sporting 650B wheels, the 27.Five model helps Haro become one of the few brands to offer all three adult mountain bike wheel sizes and two kids wheel sizes, delivering optimal fit and comfort for every type and age of rider.

Equipped with a slew of features found on the FLC Carbon series, the Flightline Aluminum puts a priority on performance without completely draining your wallet in the process. At the core of the Flightline are the FL3G and FL3Gi frame designs, featuring custom-shaped and lightweight 6000 series aluminum to deliver torsional stiffness for maximum power delivery and vertical compliance to take the edge off rocky trails. FL3Gi frames also feature a semi-integrated head tube for a more integrated look typically found on bikes costing hundreds more.

With new high-quality components for 2014 from Shimano, SRAM, WTB, Prologo and Kenda along with the trusted Haro limited lifetime frame warranty, the Flightline Aluminum series is built to scream down the trails.

**Kicking things off the line is the Expert 29er.** Whether it's your first big wheel bike or one of many in your stable, the Flightline Expert 29 perfectly blends the smooth ride of a 29er with the characteristic maneuverability of a Haro BMX bike. As Haro's flagship aluminum 29er it sports FL3Gi design with high-technology X-6 Lite tubing. Boasting a terrific mix of SRAM and Avid components, a Rock Shox XC30 with Poploc, Kenda tires and a Prologo saddle, the Expert 29 is ready to rock straight out of the box.

**FL29 COMP**

# SINGLE TRACK MIND

If your mission is to flatten the hills and straighten the curves, then the Flightline Comp 29 is your General Lee. Endowed with the innovative FL3Gi frame design and proven geometry of the higher priced Flightline models, the Comp 29 delivers a quick, nimble ride uncommon for 29ers. Round it out with Shimano components and the Flightline Comp 29 flattens more than just hills, it flattens the competition too.

Getting into the excitement of mountain biking is as simple as putting your legs around a Flightline Sport 29. Strong, durable, lightweight and fast when compared to everything else in its class, the Flightline Sport 29 makes even the most challenging terrain more enjoyable. Your first mountain bike should help you ride better, not hinder you, so hop aboard a Sport 29 and begin a lifelong adventure of fun.

(MAN)  
HANDLE  
THE  
HILLS

What's in a name? As far as the Flightline Trail 29 is concerned, it's endless miles of choice singletrack. Thanks to its FL3Gi frame, advanced geometry and quality components from Shimano, WTB, Kenda and SR Suntour, the Trail 29 rips corners with ease and shifts with confidence. And the big 29-inch tires on the Trail 29 make even the sketchiest high speed fire road downhills smoother and more stable.

Big wheels really do keep on turning, and the Flightline One 29 is proof. Featuring a light weight FL3G aluminum frame, Shimano shifting, 100mm travel fork and a micro adjust seat post, the One 29 is so fun and affordable that you may just buy a second one for a friend. On second thought, maybe just keep it for yourself as, you know, a backup.

SHIFT  
YOUR  
THINK  
ING

The only thing more unbelievable than the superior handling and stability of the Flightline Two 29 is the price tag. Built on the FL3Gi frame platform, the big wheels of this 29er help you conquer rock gardens you never before thought possible. Add in quality components on bikes costing more than twice as much, and the FL Two delivers maximum value and smiles.

## FL26

# TRAMPLE THE TRAILS

### LIGHT AND AGILE, THE FL26 IS MAKIN' MOVES.

There's nothing like the original. For those who haven't quite bought into the big wheel revolution and are seeking a fun, responsive and flickable machine for trail duty, the Flightline Series with traditional 26-inch wheels is choice. Even if you're just looking for a high-quality mountain bike to chase your kids through the neighborhood on, you can't beat the value of a Haro Flightline. A new 13" step-thru model for 2014 is perfectly suited for the ladies out there, and with components from Shimano, WTB and Kenda, the Flightline series serves up a level of performance that competitors simply can't touch.

**( At the top is the all new 26 Sport.** Stepping up to the Flightline Sport with an FL3Gi aluminum frame will yield numerous features not found on bikes in its price range. Featuring hydraulic disc brakes, high-quality WTB components, a wider, more comfortable saddle along with tried-and-true Shimano components, shifting and handling even the roughest terrain are all made easier aboard the Flightline Sport.

## FL26 TWO

# TWO FOR THE (OFF) ROAD

As the most affordable Haro mountain bike with disc brakes, the Flightline Two is a terrific choice for those looking to get big stopping power without a big price tag. The Flightline Two with a lightweight FL3Gi aluminum frame also boasts a new 13" frame size with lower stand over height. A new lockout suspension fork, faster rolling tires, crisp shifting and stopping on a dime equals rave reviews for the Flightline Two.

## FL26 TWO

**SIZES:** 13", 15", 17", 19", 21"

**FRAME:** Haro Flightline FL3Gi 6000 Series alloy

**FORK:** SR Suntour XCT 80mm travel w/ MLO

# STEP UP, STEP THRU

As the most attractively priced mountain bike in the Haro lineup, the Flightline One features a lightweight FL3G aluminum frame in traditional 13"-21" sizing and step thru 14"-17", lightweight aluminum stem and quality Shimano components. Whether singletrack, dirt road or bike path, the Flightline One is the perfect machine for those who want to get outside, get a workout and maybe even get a little dirty!

**FL24**

# CRUI SER OR BRUI SER

From promising junior cross-country racers to kids who just like to tear around the neighborhood, the Flightline 24 is extremely versatile. Featuring a lightweight FL3G aluminum frame and lower stand over height, the Flightline 24 makes riding easier and lots more fun. Kids will love the three color choices, including a radical Acid Green paint job guaranteed to get attention. Effortless and durable Shimano twist shifters and derailleurs are perfect for helping little hands shift gears, and the smaller 24" wheels make it nimble and quick.

## **FL24**

**SIZES:** 12"

**FRAME:** Haro Flightline FL3G 6000 Series alloy

**FORK:** HL 410E 40mm

**CRANKSET:** SR Suntour XCC-102 42/34/24 square taper BB

**FL20**

# FOR THOSE ABOUT TO ROCK

There's no better way to start your kid's lifelong adventures on a mountain bike than with the Flightline 20. And just because it's a kid's bike doesn't mean it can't benefit from advanced technology like a lightweight FL3G aluminum frame that's durable enough to endure youthful abuse. Add in a suspension fork and Shimano Revo Twist shifters that help keep little hands on the grips for added control, the Flightline 20 is a small bike that's huge on value.

## **FL20**

**SIZES:** 10"

**FRAME:** Haro Flightline FL3G 6000 Series alloy

**COLORS:** Black / SG Red / Metallic Purple

**STEEL RESERVE**

# RIDIN' DIRTY

**BORN ON THE STREET, RAISED IN THE HILLS.**

Progression is the theme when we are designing the line of Steel Reserve dirt/street freestyle bikes. Engineered from the ground up to give a wide range of riders the perfect bike for their riding style is exactly the vision Bob had when he was creating the freestyle revolution. Features such as short chainstays, low top tube and sturdy chromoly construction enable every rider to ride at their limit and beyond. Experience the new Steel reserve series for yourself and go bigger on the mountain or in the park.

With 3 options to choose from Haro offers something for everyone. Everything from the 1.1 with a rigid fork to the 1.2 with 80mm of fork travel to the top of the line 1.3 with CNC interchangeable drop outs, these bikes are capable of flip-whipping their way through the parks or on the local trails. Let the 2014 line of Steel Reserve freestyle mountain bikes be your game changer.

## STEEL 1.3

**SIZES:** 21.8" TT (Short), 22.3" TT (Long)

**FRAME:** 4130 full Crmo w/ double butted DT; integrated HT and interchangeable dropouts

**FORK:** Marzocchi DJ1 100mm travel w/ 20mm thru axle

**CRANKSET:** 4130 3 piece tubular Crmo w/ Haro alloy 25T sprocket

**BRAKES:** Tektro Draco hydraulic w/ 6" wave rotor (rear only)

**CASSETTE:** 12t cog

**HANDLEBAR:** Gravity Gap OS Riser Bar, 25mm Rise, 31.8 Clamp

**STEM:** Gravity Gap Oversize Stem, 45mm Extension

**GRIPS:** Haro lock On

**SADDLE:** Haro slim padded Pivotal

**SEATPOST:** Pivotal 25.4

**RIMS:** Alienation Skylark

**FRONT HUB:** 36H alloy shell sealed bearing; single speed cassette rear

**REAR HUB:** 20mm thru axle front

**TIRES:** Kenda K-Rad 2.3"

**COLORS:** Matte Acid Bath

## STEEL 1.3

# PUMP UP THE JAM

### FREESTYLE AND MTB, SITTING IN A TREE...

Throw a legendary Haro BMX freestyler and a Haro mountain bike in a smelter and you get the ultimate freestyle mountain bike - the Steel Reserve 1.3. The Steel Reserve 1.3 is 100% 4130 chromoly, butted for maximum strength and weight savings with Six Shooter CNC horizontal slotted interchangeable dropouts for superior versatility. The Steel Reserve 1.3 is a custom built bike without the custom built price tag, featuring premium components like a 100mm Marzocchi DJ1 fork with 20mm thru axle, Alienation Skylark double-wall rims, Haro 3 piece chromoly cranks and sealed thin pedals.

STEEL 1.2

**SIZES:** 21.8" TT (Short), 22.3" TT (Long)  
**FRAME:** 4130 full Crmo w/ double butted DT; BMX inspired horizontal dropouts  
**FORK:** RST Dirt 80mm travel, hydraulic rebound  
**CRANKSET:** 4130 3 piece tubular crmo w/ Haro alloy 25T sprocket  
**BRAKES:** Tektro IO Mechanical disc w/ 6" rotor (rear only)  
**CASSETTE:** 12t cog  
**HANDLEBAR:** Haro alloy riser bar, 30mm rise, 680mm width, 31.8mm clamp  
**STEM:** Haro alloy clamp on stem; 50mm extension; 10 degree rise; 31.8 bar clamp  
**GRIPS:** Counterfeit BMX  
**SADDLE:** Haro slim padded Pivotal  
**SEATPOST:** Pivotal 25.4  
**RIMS:** Alienation PBR front, Black Sheep rear  
**HUBS:** 36H alloy shell disc; single speed sealed bearing cassette rear  
**TIRES:** Kenda K-Rad 2.3"  
**COLORS:** SG Black

FLIPS  
AND  
WHIPS

Packed full of high end features like an 80mm travel RST Dirt suspension fork, a Pivotal seat and post and Alienation rims, the Steel Reserve 1.2 represents a remarkable value that rolls in a class all by itself. And because the Steel Reserve 1.2 wears a Haro badge, it comes with innovative, compact geometry that invented the entire freestyle segment more than 30 years ago.

STEEL 1.1

**SIZES:** 21.8" TT (Short), 22.3" TT (Long)  
**FRAME:** 4130 full Crmo w/ double butted DT; BMX inspired horizontal dropouts  
**FORK:** Suspension corrected 4130 crmo rigid fork  
**CRANKSET:** 4130 3 piece tubular crmo w/ Haro steel 25T sprocket  
**BRAKES:** Tektro IO Mechanical disc w/ 6" rotor (rear only)  
**CASSETTE:** 12t cog  
**HANDLEBAR:** Haro steel riser bar; 30mm rise; 680mm width; 31.8mm clamp  
**STEM:** Haro alloy clamp on, 60mm extension; 10 degree rise; 31.8 bar clamp  
**GRIPS:** Counterfeit BMX  
**SADDLE:** Haro slim padded one piece seat/post  
**SEATPOST:** 25.4mm post included with seat  
**RIMS:** Weinmann Zac-19 alloy double wall  
**FRONT HUB:** 36H alloy shell disc; single speed sealed bearing cassette rear  
**TIRES:** Kenda K-Rad 2.3"  
**COLORS:** Matte Blue / Matte Dark Grey

Whether pumping at the park or airing out massive gaps, the Steel Reserve 1.1 can go as big as your huevos allow. Featuring an integrated internal head tube and full 4130 chromoly frame, forks and cranks, the Steel Reserve 1.1 possesses the agile qualities of a legendary Haro BMX bike that's built to handle as much abuse as you can deliver.

PROJEKT

**SIZES:** 49cm, 53cm, 57cm  
**FRAME:** 700c fixed gear w/ horizontal dropouts  
**FORK:** 700c full crmo, designed to accommodate bigger tires  
**CRANKSET:** 3 pc. forged alloy w/ 44t chainring  
**BRAKES:** Tektro Dual Pivot  
**CASSETTE:** 16t cog w/ lock ring  
**HANDLEBAR:** Haro alloy riser bar; 30mm rise; 600mm width; 25.4 clamp  
**STEM:** Haro alloy clamp on, 10 degree rise, 25.4 clamp  
**GRIPS:** Counterfeit BMX  
**SADDLE:** Haro slim padded w/ embossed cover  
**SEATPOST:** Steel 25.4mm  
**RIMS:** Weinmann LP-18 alloy double wall  
**HUBS:** 32H alloy shell; flip-flop rear  
**TIRES:** Kenda Kwest 700 x 28c
