Bienvenido

At Del Sol, we are profoundly passionate about the power of the bicycle. Pedal across town and discover small businesses, pocket parks, and public art you never knew existed. Ride the blocks around your home to meet your neighbors, take a weekend ramble through the countryside or pedal down to the shore. Errands are now meditation and communion, and commuting is no longer drudgery. Free your feet and open your heart, as the world unfolds beyond your bars and beneath your wheels.

Del Sol is a community of 18 models created for the weekend cruiser, the dedicated commuter, the hipster, the parent, the fashion victim. Because whoever you are is ok with us, as long as you do it on two wheels.

Del Sol is pedaling out to claim your place in the sun.

Del Sol is being present in the moment. Del Sol is a right-sized and free-spirited life.

Del Sol is being present in the moment. Del Sol is a right-sized and free-spirited life.

Simplify.

Life can be complicated, simplify your ride. Get out of the fast lane and onto a Del Sol cruiser, a laid-back bunch of bikes with a beach vibe and a free spirit. Roll down to the ocean or to Sunday morning brunch on a bike that invites you to relax and have fun. It's time for sunshine, for flip flops, for blender-drinks and for your new Del Sol.

Go from sweet to street - from the Cantina single speed in sky blue; to the extra-wide tires and moto-inspired handlebars of the Railer - we have a style that's right for you. For 2017, fresh colors and prints combine with a sleek new frame design and a more foot-forward, stable geometry, for a beach cruiser that rides as well as it looks.

Get one-on-one with your Projekt: a keepin' it real steel frame, alloy bars, stainless steel spokes, a rear brake for emergencies (and to keep it legal) and the thoughtful addition of a flip flop-hub for switching from fixed to freewheel. It's an uncompromising vision, and a powerfully vivid way to crank through the city.
